

IACT HEALTH PATIENT ACQUISITION

IACT HEALTH HAS EVERYTHING YOU NEED.

IACT Health provides you with better, more comprehensive service at a lower overall cost by providing stellar patient acquisition, thus lowering the overall cost of research.

IACT HEALTH'S UNIQUE INFRASTRUCTURE ALLOWS US TO DO IT BETTER THAN ANYONE ELSE.

LET IACT HEALTH TAKE THE BIGGEST HEADACHES OUT OF THE CLINICAL TRIAL PROCESS.

Most companies spend twice as much time and money enrolling patients by paying for an outside service that will only find the patient. We take out the middle man and provide a “one-stop-shop” for enrolling and running the trial.

IT'S EASIER IF ONE COMPANY CAN SIMPLY HANDLE EVERYTHING FOR YOU.

IACT Health can handle your patient acquisition with our existing infrastructure allowing us to do it better than anyone else. Exclusive proprietary real world connections to doctors and hospitals help us to target the right individuals for your trials and quickly enroll them. A million patient database, all day patient outreach, dedicated EMR analysts, and full time research marketing team are a few resources IACT Health can offer your trial.
